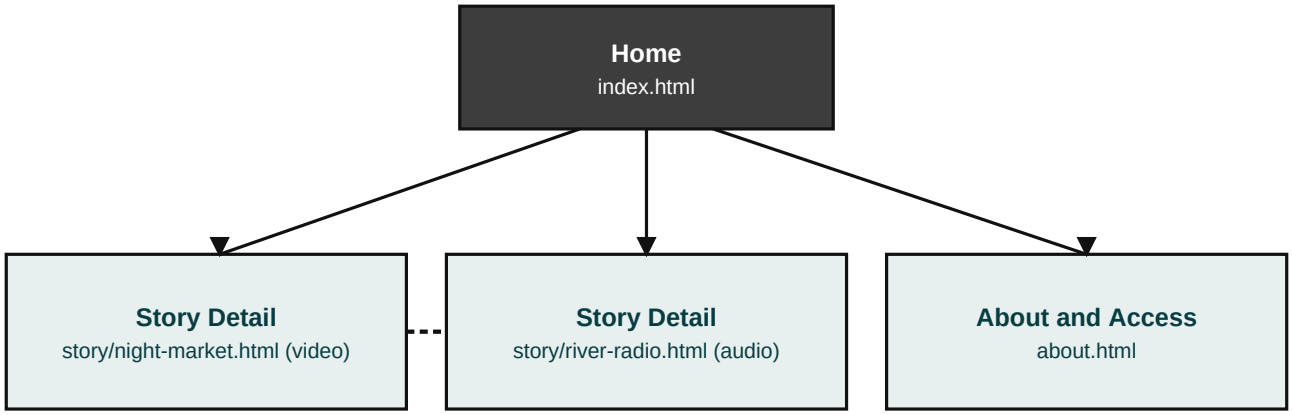
StoryCast: Sitemap and Content Hierarchy

Information architecture for the three page types. This page is also section 3 of storycast-research.pdf.



Every page links back to Home through the primary nav. Story pages link to About and Access; About links to the stories. Dashed line: Related stories link between the two story pages.

Page purposes

Page	File	Purpose
Home	index.html	Introduce StoryCast and send visitors to the featured stories or to access information.
Story Detail	story/night-market.html, story/river-radio.html	Play one story with captions or a transcript and offer the other story as related content.
About and Access	about.html	Explain the mission, access features and how to take part.

Content hierarchy (headings in the built pages)

Page	Heading outline
Home	h1 Stories you can see, hear and read. h2 Featured stories (h3 The Night Market, h3 River Radio) h2 Made for everyone
Story Detail	h1 The Night Market (or River Radio) h2 Related stories; the transcript sits in a details element after the player
About and Access	h1 About and Access h2 Our mission h2 Accessibility features (h3 Captions and transcripts, Keyboard friendly, Readable colour and type, Screen reader support) h2 How to engage
